conducted. In addition 10 High Quality Aptitude Test, A minimum of 15 full-length tests is conducted which is considered quite adequate to clear any aptitude test. The topics for aptitude skills are spread across to cover Quantitative, Reasoning and Verbal Ability. For each category there are topic wise tests and for each test topic, there are questions included under 3 difficulty levels.

An Intensive Soft Skills Training programme

The theme would be on making the students apply the Six Designs over Six Days to give them an insight into how to blend and synthesize their class room learning into the applications realm in the world outside.

The ability to project, protect, promote and propel their latent talents, ideas, views, opinions and feelings with inbuilt confidence, competence, convictions and clarity of thought to the world outside commencing from fellow class mates to competing strangers.

All learning would essentially be activity based with professional feedback and feed forward to ensure that learning is meaningful and effective from a life skill perspective.

The program is designed not just for facing the upcoming placement tests and interviews.

- Preparing to know ourselves and others.
- Getting to protect our own ideas and pitch it against others
- Experiencing that there is always another way and how do we slowly go into ourselves to unravel the secrets of mastery
- Application of Creativity and Critical thinking
- Collaborating with others to achieve stated objectives with defined deadlines and competing with others
- Ability to see connections, trends and patterns and working for seamless integration and hone the ability to face challenges with confidence
- Group Discussions from varied dimensions and intensity
