The National Institute of Engineering

The National Institute of Engineering (NIE), established in the year 1946, today stands at 175th place among the top Engineering colleges in the country that include IITs and NITs as per National Institution Ranking Framework (NIRF-2020) announced by Ministry of Human Resources Development (MHRD). NIE offers 7 UG, 12 PG Programmes and has 15 Centres of Excellence. Five Undergraduate Programmes - Civil Engineering, Mechanical Engineering, Electronics & Communication Engineering, Electrical & Electronics Engineering, Industrial & Production Engineering and three PG Programmes – Hydraulics, Production Engineering & System Technology, Structural Engineering have been accredited by the NBA, New Delhi, under Tier-I. It is one of the 14 colleges in Karnataka that has been recognized under MHRD-World Bank sponsored Technical Education Quality Improvement Programme (TEQIP). All the Departments of NIE are recognized Research Centre under VTU and AICTE for QIP.

Department of Electrical and Electronics Engineering

The graduate course in Electrical & Electronics Engineering was started in the year 1958. Subsequently post graduate courses in Power Systems and Computer Application in Industrial Drives were started in the years 1971 and 1996 respectively with grants from AICTE. The department has highly qualified and experienced faculty members and well-equipped laboratories. It has produced 25 Ph.D.s. and 20 candidates are currently pursuing Ph.D. The department under TEQIP-I has enhanced facilities of the existing labs and has setup a few state-of-the-art labs to meet the UG, PG and research needs.

Theme of the Faculty Development Program

Renewable energy systems and Electric Vehicles are the emerging trends in Electrical Engineering at present conditions. The integration of renewable based charging stations to EV and application of power filters in Renewable energy systems attract attention of people in the area research and technology development. Thus power quality, custom power devices and associated converters with relevant control techniques, PFC converters occupy an important role in present day technology. The knowledge gained through this FDP will pave the way for future challenges in the implementations of power filters in renewable energy system, electric vehicles charging systems, design of custom power devices and associated advanced control algorithms. The main objective of this online FDP is to bring together experts working in various domains associated with the above research areas and share their experiences and equip the participants to meet the challenges.

Who can attend?

Faculty members from Engineering College /Institution, working Professionals and practicing Engineers from various Research Organizations and Industries, PG students & Research Scholars can apply.

About the Programme

TEQIP-3 sponsored National Workshop on
Application of Power Electronics to Renewable energy systems and Energy Storage

Date: 06th – 10th July 2020
Dept: Electrical & Electronics Engineering

The Department of Electrical & Electronics Engineering, The National Institute of Engineering, Mysuru organized a national workshop on Application of Power Electronics to Renewable energy systems and Energy Storage. Dr. H Pradeepa, HoD, Dept. of EEE inaugurated the event. The event was attended by 125 participants, including faculties from different engineering colleges across the country, faculties within the department, PG and research scholars and industrial personnel. The course objective was:

- To bring together experts working in various domains associated with the theme and share their experiences, and equip the participants in implementing these systems and overcoming challenges.

The participants were exposed to different aspects of Electric Vehicle Technology such as:
- Control of Custom Power Devices and its Applications
- Grid-interfaced Solar Photovoltaic Power Generation
- Wired and Wireless Charging Infrastructure for EVs
- Advance Control Systems
- Signal processing application for fault location
- DC/AC Converters: Fundamentals and Research Aspects
- Time and frequency analysis of Power Quality Problems
- Investigation on the Advanced Control Strategy of grid-tied Solar PV system
- Doubly Fed Induction Generator for Wind Energy Conversion Systems
- Electric/Hybrid Vehicle Technology

The key takeaways of the workshop were:
- The knowledge achieved through this workshop will pave the pathways for future research directions in Custom power devices grid interfacing electric vehicle.
- The FDP will enable the researchers to build a network in the above areas of research
Screen Shots of various online sessions
Barriers and Challenges of Today’s Power System

- Complexity of traditional power systems:
  - Fully coupled dynamics of generation, distribution, and delivery.
  - System stability is enabled by imposing an overwhelming, slow, electromechanical or electrochemical dynamics of the sources.
- Local focus of power electronics:
  - Concentrated on load dynamics
  - Evolving focus on source dynamics (UPS, distributed generation, fuel cells, alternative energy sources)
  - Until now, only “fixing the problems” of power distribution

**Challenge:**
Reduce system cost, increase efficiency and availability by decoupling the dynamics of energy sources, distribution system, and loads through the use of power electronics.

Challenges

- Challenges for grid integration of the dispersed wind energy
  - Highly variable wind power injected into the grid
  - Increased penetration of wind energy
  - Electrically weak distribution networks
  - Heavy reactive power burden brought by the induction generator

International workshop on

“Electric Power Grid Modernisation: Trends, Challenges and Opportunities”

20th – 24th, July 2020

Organised by
Department of Electrical & Electronics Engineering
The National Institute of Engineering, Mysuru

in association with
IEEE PES Bangalore Chapter

The National Institute of Engineering

The National Institute of Engineering (NIE), established in the year 1946, today stands at 175th place among the top Engineering colleges in the country that include IITs and NITs as per National Institution Ranking Framework (NIRF-2020) announced by Ministry of Human Resources Development (MHRD). NIE offers 7 UG, 12 PG Programmes and has 15 Centres of Excellence. Five Undergraduate Programmes - Civil Engineering, Mechanical Engineering, Electronics & Communication Engineering, Electrical & Electronics Engineering, Industrial & Production Engineering and three PG Programmes – Hydraulics, Production Engineering & System Technology, Structural Engineering have been accredited by the NBA, New Delhi, under Tier-I. It is one of the 14 colleges in Karnataka that has been recognized under MHRD-World Bank sponsored Technical Education Quality Improvement Programme (TEQIP). All the Departments of NIE are recognized Research Centre under VTU and AICTE for QIP.

Department of Electrical and Electronics Engineering

The graduate course in Electrical & Electronics Engineering was started in the year 1958. Subsequently post graduate courses in Power Systems and Computer Application in Industrial Drives were started in the years 1971 and 1996 respectively with grants from AICTE. The department has highly qualified and experienced faculty members and well-equipped laboratories. It has produced 25 Ph.Ds. and 20 candidates are currently pursing Ph.D. The department under TEQIP-I has enhanced facilities of the existing labs and has setup a few state-of-the art labs to meet the UG, PG and research needs. The department envisages enhancing the computing facilities and laboratories with high end system development tools under TEQIP-II. The department also received grants under TEQIP-III which has been released to only few institutions. Under TEQIP-III the department is mentor for Rajkiya Engineering College, Banda.

Who can attend?

Faculty members from Engineering College /Institution, working Professionals and practicing Engineers from various Research Organizations and Industries, Research Scholars & PG students can attend.

Theme of the workshop

Public policies, economics, and technological innovations are driving the rapid rate of change in the electric power system. The power system advances toward the goal of supplying reliable electricity from increasingly clean and inexpensive resources. The electrical power system has transitioned to the new two-way power flow system with a fast rate and continues to move forward. This exciting transformation of the nation’s electric grid creates both challenges and opportunities to advance the capabilities of today’s electricity delivery system. The main objective of this online workshop is to bring together experts across the globe working in various domains associated with the electric power grid and share their experiences and equip the participants to work towards overcoming the challenges.

Why it is very serious??

- What was non-existent a few years back, and over the last few years was:
  - Supplementary or even Complimentary has now occupied, CORE position.
  - Class room lectures, Textbooks, problem solving (Schaum Series) now is:
  - Replaced by On Line "Lectures", where it is Challenging to Teach and so,
    much more challenging to Learn. Laboratories are even more a poor "Joke".
  - At a time, when Learning is Rewarding and Opportunities abound for the well
    learnt.

Socratic Approach

1. What is Machine Learning (ML)?
2. What is Optimization?
3. Broadly Optimization → Classical
   → Classical Calculus
   → Calculus of Variations
   → Lagrange Multipliers
   → Hamiltonian, etc.
Moskat B: Yes Sir. We do agree.

Moskat B: Many INTEL courses are very similar to class room teaching only sir.

Moskat B: Many INTEL courses are very similar to class room teaching only sir.

Barun: But all online INTEL courses are very evaluative sir?

Moskat B: What's your opinion on this sir.

Moskat B: In the class having 120 students, only 20-25 student only respond in the chat box and get involved in interaction. Any techniques to increase this?

Chandu: I think there is an issue with audio

Barun: There is no audio.

Barun: Is there no audio?

Dr. Uma B: Can the duration for online class be same as physical class for teaching.

Report and outcome of the event

Covid - 19 has brought in a paradigm shift in teaching-learning process that no one ever dreamt of - from traditional classes to online classes. It has been very challenging for the teaching community to adopt to online teaching practices and that too in an effective manner. The digital classroom brings with it a range of unknown and unexplored territory, mostly in part to its relative newness when compared to traditional teaching methods. In order to bring in awareness on challenges and showcase the importance of Effective Online Teaching practices in today’s scenario of education, the Department of Computer Science & Engineering had organized an online “Orientation Seminar on Effective Online Teaching Practices” for staff members under TEQIP-III on 24th September 2020. The resource persons were Dr. Ashok Rao, Director NIEMC and former Head of CEDT IISc, Dr Arulalan Rajan Faculty IISc and Mr S. M. Narasimhan Adjunct faculty.

Dr Ashok Rao talked about the need for effective online teaching practices and emphasized on “80-20 rule”. He said “Teaching should be at a higher level than learning” and also emphasized on difficulties of online T-L process. While Dr Arulalan Rajan, in his talk discussed on how effectively gadgets could be used for teaching analytical subjects. Mr Narasimhan demonstrated how effectively software tools could be used for conducting experiments using virtual labs.

The Orientation Seminar on Effective Online Teaching Practices had around 45 participants from host and other instutions. The participants were practically exposed to the benefits of effective online teaching practices amidst challenges.

The seminar was organized and covened by Dr Vidya Raj C Professor CSE and Dr Jayashree B S Associate Professor CSE and coordinated by Shashank S Assistant Professor CSE and Ramya S Assistant Professor CSE under the guidance of Dr Rohini Nagapadma Principal and Dr V K Annapurna Professor and HOD CSE.

Problem solving strategies

The practical handholding approach of teaching using 1st Principles

Though the workshop is half done the method Prof. Sudarshan Jayaward used to share his knowledge is highly effective. Wish this continues.

Interactive session

This FDP gave new insights to Data science and ML concepts. FDP was very informative.

Report and outcome of the event

A three-day workshop was organised by the Department of Computer Science and Engineering on ‘Mathematical Foundations for Data Science’ from 4th January 2021 to 6th January 2021 with an objective to introduce faculty members and make them appreciate the Mathematical aspects of Data Science. Dr. Sudarshan Iyengar, Professor from IIT Ropar, Punjab was the resource person.

The first day focussed on defining a set of classical problems under Data Science. The speaker invoked the curiosity of the audience through a series of questions and classic examples. It was a fun-learning experience for the audience through simple problem solving.

The second day of the workshop involved interesting sessions on further problem solving and establishing a set of results. The problems of day-1 were revisited and some standard inferences were made.

The third day of the workshop involved vectors and some important results involving linear combinations of a set of vectors. There was an introduction to the Matrix theorem in terms of mapping to the solution of simultaneous linear equations.

Outcome:

It was a very enlightening experience in terms of the takeaway of key concepts of the Mathematical foundations in a fun-filled manner. As per the feedback, the participants thoroughly enjoyed the workshop and obtained a starting point for exploring further on Data Science aspects.

To  
The Principal,  
NIE, Mysuru  
Respected Sir:  

Sub: Incorporating Matlab with mathematics course  

In order to expose the students about the implementation aspects for the mathematics course, we (Dept of mathematics and Dept of ECE) have planned to conduct lab classes for 2nd year ECE students (E and F sections). This will include running matlab codes for some of the concepts studied in the mathematics (MA1C01/MA2C01) courses. Students will use the computing facilities in the ECE department and the lab will be conducted jointly by Maths and ECE dept faculty. We intend to make it optional this time. Depending on the response by the students and usefulness of this experiment, we can explore the option of making it compulsory in the subsequent years.  

ECE dept will conduct a Matlab overview workshop for Maths Dept. faculty sometime between 29th March and 10th of April, to make the proposed exercise effective. Dr Roopa K and Dr. Nagaraju C from ECE department will coordinate this workshop.  

Request you to kindly approve the proposal. We will be glad to provide additional information, if needed.  

Thanking you

Sir,

Sub: Conduction of technical training program on “Digital Image Processing” for Students and Staff

We bring to your kind notice that we have planned to organize a 3-days intensive technical training program on “Digital Image Processing” from Thursday, 18/2/2021 to Saturday, 20/2/2021. We are expecting to get a total of 30 participants; students and staff. It will be in blended mode. Most of the sessions are planned offline. We will be collecting an amount of Rs. 150 (Rs. One Hundred and Fifty only) per student to meet the expenses. The program will help the participants in gaining theoretical and practical aspects of Digital Image Processing. Since the subject is offered as an elective for the forthcoming 6th semester ECE students, the program will be useful to them to gain prior knowledge. Moreover for M.Tech students and PhD scholars also it will be helpful. We request you to kindly permit the conduction of event. The tentative schedule and the budget are attached herewith.

Thanking You

Sincerely

Objective

The objective of this STTP is to give exposure on the digital image processing techniques. The applications of Image processing concepts are found in areas such as in Biometric image processing, machine vision, DIÇOM and Infrared Imaging and its applications. This STTP will help the engineering students and enthusiasts/scholars to get trained in MATLAB and Octave based image processing. The STTP is designed to stimulate students' interest in Image Processing domain by engaging them in a completely purpose driven study environment with hands-on activities while fostering a sense of curiosity and accomplishment.
Report of Day1:

There was a short inauguration from 10.45 am to 11 am. Ms. Supriya of MTech first semester sang the invocation song followed by short speech by HoD, Dr. Narasimha Kaulgud who welcomed the participants and spoke on the importance of the program. The sessions were held from 11 am to 5.30 pm. The forenoon session was held from 11 am to 1.30 pm. It was handled by Dr. Roopa K. This session covered an Introduction to Image Processing and Fundamentals of Digital Image processing. The session highlighted the importance of image processing and analysis including the latest NASA Mars mission Perseverance rover. Operations like preprocessing, image digitization, enhancement and segmentation were covered in detail along with demo, case study and handson. The session also covered other operations like feature extraction, restoration, object recognition and interpretation. Each concept was introduced with its theoretical background and practical relevance followed by a hands-on MATLAB® and Octave programming. The afternoon session was handled by Dr. Narasimha Kaulgud and Dr. Roopa K. Additional extensive handson exposure was given in this session using MATLAB® and Octave programming.

Report of Day2:

The sessions were held from 9.30 am to 4.30 pm. The first session was held from 9.30 am to 11.30 am by Dr. Sudarshan Iyengar. The session gave a simple and clear understanding of spatial domain filtering of image matrix, frequency analysis and importance of eigen values.

The second session was held from 12 noon to 1.30 pm. It was conducted by Dr. Nagaraju C. This session gave an insight on use of Image Processing in Telemedicine.

AICTE sponsored 5 days Faculty Development Program on “Hands-on Approach For the Design and Implementation of Lab on Breadboard – A Blended Learning” was conducted from 21st to 25th July 2021 in which around 130 participants from different parts of the country participated. The aim of this FDP is to impart the concept of lab-on-chip/lab-on-breadboard for various applications. Lab-on-Breadboard is very useful for the faculty members, research and professionals to demonstrate the basic concept in design. Fundamentals of the analog circuit and digital circuit design and considerations are covered by the eminent resource persons on this FDP and the participants had a hand-on experience on the circuit design both in hardware and in simulator. At the end of the FDP, participants were familiarized with a minimum of 10 experiments on Analog designs and Digital designs, both hands on and simulation on computers (Blended learning concepts).

The key takeaways of the workshop were -
- Concepts about blending learning
- Exposure to different simulator tools- TINA-TI and LogicSim
- Exposure to cost effective analog and digital product design

The participants were highly enthusiastic having attended the workshop. They have planned to extend their knowledge and start blended learning.

AICTE sponsored 5 days Faculty Development Program on

“Hands-on Approach For the Design and Implementation of Lab on Breadboard –A Blended Learning”

AICTE sponsored 5 days Faculty Development Program on “Hands-on Approach For the Design and Implementation of Lab on Breadboard –A Blended Learning” was conducted from 21st to 25th July 2021 in which around 130 participants from different parts of the country participated. The aim of this FDP is to impart the concept of lab-on-chip/lab-on-breadboard for various applications. Lab-on-Breadboard is very useful for the faculty members, research and professionals to demonstrate the basic concept in design. Fundamentals of the analog circuit and digital circuit design and considerations are covered by the eminent resource persons on this FDP and the participants had a hand-on experience on the circuit design both in hardware and in simulator. At the end of the FDP, participants were familiarized with a minimum of 10 experiments on Analog designs and Digital designs, both hands on and simulation on computers (Blended learning concepts).

The key takeaways of the workshop were -

- Concepts about blending learning
- Exposure to different simulator tools- TINA-TI and LogicSim
- Exposure to cost effective analog and digital product design

The participants were highly enthusiastic having attended the workshop. They have planned to extend their knowledge and start blended learning.

The inauguration by AICTE was held on 19th July 2021 online at 11:00 am. Hon’ble Director, Prof. T.G.Sitharam, IIT Guwahati was the chief guest of the ceremony. Hon’ble Prof. Rajive Kumar, Member Secretary AICTE, and Dr. Mamta Rani Agarwal, Adviser- I ATAL were also present in the function.
The inauguration of the FDP in our FDP was held on 21st July 2021. By lighting the lamp by the FDP co-ordinators and HoD of ECE department, the FDP was officially inaugurated physically. Some of the Photographs of the inaugural ceremony is attached here.

As the FDP is on Lab on Breadboard – A blended learning, Resource person prof. S M Narasimhan came to our institution and have shown the output of different circuits to the participants in online. The photograph of with resource persons and FDP organizing team is shown below.

The National Institute of Engineering (NIE), Mysuru, Karnataka, India

NIE, started in the year 1946, today stands at the top positions among India’s top Engineering Colleges. The National Institute of Engineering (NIE) is a grant-in-aid institution and approved by the All India Council for Technical Education (AICTE), New Delhi. NIE got autonomous status from Visvesvaraya Technological University (VTU), Belagavi in 2007. It has been accredited by NAAC.

Five Undergraduate Programmes – Civil Engineering, Mechanical Engineering, Electronics & Communication Engineering, Electrical & Electronics Engineering and Industrial & Production Engineering have been accredited by the National Board of Accreditation (NBA), New Delhi, under Tier-1.

It is one of the 14 colleges in Karnataka that has been recognized under MHRD-World Bank sponsored Technical Education Quality Improvement Programme (TEQIP) in all the three phases. All the Departments of NIE are recognized as Research Centre under VTU and AICTE for QIP. Currently, NIE offers 7 UG and 12 PG Programmes. Faculty has been the main strength of NIE imparting quality education both by conventional methods of teaching-learning process as well as contemporary ones.

The Department of Mechanical Engineering (ME) established in 1958 has created creditable milestones, enabled success stories for its faculty, students alike, and partnered with industry and academia to innovate for social impact.

An NBA Tier-1 programme and ‘Research Centre’ recognized by the Visvesvaraya Technological University (VTU), the department has forged industry collaborations with leading automation companies such as Bosch-Rexroth, Felsomat, Fanuc, Festo, Siemens and Christiani. Its 14 well-equipped laboratories, and 8 Centres of Excellence have spawned innovations that go beyond prototypes to become real world solutions — hub for motor sports teams, turnkey projects in rainwater harvesting for Mysuru palace, and a biogasification plant for Mysuru zoo to name a few. MoUs with National Entrepreneurship Network (NEN) and MSME Development Institute foster entrepreneurship and business skill development.

A highly-qualified and erudite faculty with several patents and publications to its credit nurture students to achieve excellence. For an exciting future on the edge of technology, this is the place to be!

The Centre for Nano-Technology (CNT) was established in 2012 to carry out focused research on cutting edge areas in Nano-Science and Nano-Technology. The Nano Mission, Department of Science and Technology, Government of India has sanctioned a financial grant of Rs. 1.86 Crores for the research project titled “Characterization of Composite Materials and Application of Nanomaterials for Sustainable Energy”. Vision Group on Science and Technology (VGST) of Govt. of Karnataka has also sanctioned a research grant of Rs 60-lakh under Centres of Excellence in Science, Engineering and Medicine (CESEM) to carryout research on “Development of CIGS-based Nanomaterials for Photovoltaic’s”.

The centre has also received research grants from DST – Nano Mission, Govt. of India, VGST – Govt. of Karnataka, CSIR – CFTRI, UGC - Govt. of India UGC – DAE, RRCAT, DRDO- DFRL for various projects.

The National Institute of Engineering (NIE), established in the year 1946, today stands 175th place among top engineering colleges in the country that include IITs and NITs as per National Institution Ranking Framework (NIRF-2020) announced by Ministry of Human Resources Development (MHRD). It is ranked 18th among India’s top Engineering Colleges, as per survey conducted by Times of India (June 2020). NIE is a Grant-in-Aid Institution and approved by the All India Council for Technical Education (AICTE), New Delhi. NIE got Autonomous status from Visvesvaraya Technological University, Belagavi in 2007. Five Undergraduate Programmes - Civil Engineering, Mechanical Engineering, Electronics & Communication Engineering, Electrical & Electronics Engineering and Industrial & Production Engineering and two PG Programmes - Hydraulics and Production Engineering & System Technology have been accredited by the National Board of Accreditation, New Delhi, under Tier-I. It is one of the 14 colleges in Karnataka that has been recognized under MHRD-World Bank sponsored Technical Education Quality Improvement Programme (TEQIP) in all the three phases. To enrich research and consultancy activities, 15 Centres of Excellence have been set up in collaboration with Industries and Alumni. Many funded research projects of Central and State Governments, VTU and overseas Universities are presently being carried out at NIE.

About the Department of Mechanical Engineering

In addition to the B.E. programme, the Department of Mechanical Engineering presently runs three M. Tech programmes under the Autonomous scheme, namely, Industrial Automation & Robotics, Machine Design and Nanotechnology. The department is recognized as “Research Centre” by VTU. The highly qualified faculty is actively engaged in research and consultancy work in the areas of Composite Materials, Automation Technology, Nanotechnology and Renewable Energy Technology. Thanks to their initiative and efforts, the department has secured funding from reputed funding agencies such as the Department of Science & Technology (DST), TEQIP, UGC, AICTE, KCTU, etc., which has resulted in the establishment of several center's of excellence. Some of the notable ones are the Centre for Materials Research (CMR), Centre for Renewable Energy and Sustainable Technologies (CREST), Centre for Nanotechnology (CNT), Centre for Automation Technologies (CAT), CNC Training Centre, etc. NIE started M. Tech programme in “Machine Design”, in the year 2014. The uniqueness of this programme lies in curriculum and pattern of education along with state-of-the-art facilities. The students undergo extensive training on major areas of Machine Design including Finite Element Analysis using MATLAB, ANSYS, ABAQUS, optimum CT, Experimental Modal Analysis using NIDAQ and LABVIEW.
