

"The sixth season of Aravalli Terrain Vehicle Championship (ATVC) 2023, a National Level Education and Innovation Festival to promote Skill India, Startup India, Go Green, and Make India initiatives taken by the Government of India, was organized by Infi-League motorsports and hosted by Nutan Maharashtra Institute of Engineering and Technology, Talegaon Dabhade & Orison Education India Limited from 1st-5th March. This season of the grand and challenging dune buggy championship had 80 teams with approximately 3500 budding engineers from 80 plus engineering colleges across 22 states and UT participating in an exhilarating line of events for 5 days. We are very proud that our college's off-road racing car club, TEAM SAENIEKS, participated in this championship and secured the 3rd position in design and 3rd position in mega marketing. The competition was tough, but our students' determination and hard work paid off with the overall 12th position in the combustion engine domain."
